RE: Head clearance on stairwell at 245 Genoa Peak Court, Genoa Lakes, NV

Dear Mr. Whatcott:

It has come to my attention by my contractor, Jack White, that there is a clearance problem with the stairwell from the main part of my house to the bonus room area. Mr. White has advised me that by building code standards the height of the ceiling to the stairs is approximately 2 inches lower than the required minimum height. Mr. White has suggested to me to remedy the situation by removing the carpet and pad on the stairwell and putting in a less plush carpet and thinner pad. Obviously, I do not wish to do that because my children and I have plenty of head clearance on the stairwell and I like the carpet!

This letter releases Douglas County of any future liability concerning this matter.

Sincerely,

Carolyn Goff
