This document is being (re-)recorded to correct document # _____, and is correcting

Dear Fire Marshal Guevin,

Brian Kuelper and Leila Major the owners of 1342 Winding Way.

Our plans for a renovation of the interior and exterior will include all new cabinets, flooring, tile, windows, siding, adding a 3rd car garage, and a new deck will not add any living space area to the existing 2460 sq/ft. We understand that since our house is 2 stories with a loft the current county code requires fire sprinklers. We are requesting a one time consideration for alternate means to mitigate fire risk rather than install a fire sprinkler system. We agree to install a monitored fire alarm system and maintain it annually and continuously for the property. This system is to registered with the Compliance engine program. If the property is sold, buyers will be advised that they have continuing obligation for annual maintenance and inspection, with data from this process to be entered into the tracking program compliance engine. In addition this requirement shall be recorded with the Douglas county assessor's office.

Brian Kuelper
